July 24th 2026, at Allonzier-La-Caille,

Object: PPWR DECLARATION OF CONFORMITY REGULATION (EU) 2025/40

Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR) aims to reduce packaging waste, improve packaging sustainability, promote reuse and recycling, and support the transition to a circular economy.

Pilot Corporation of Europe has reviewed the requirements applicable from 12 August 2026 and implemented the necessary measures to ensure compliance of its packaging with the relevant provisions of Regulation (EU) 2025/40 applicable on that date.

Due Diligence Process

Pilot Corporation of Europe is committed to maintaining a robust due diligence process to ensure the accuracy and completeness of the information supporting this declaration.

- Certain supplier declarations and supporting documents are still pending and will be incorporated into our compliance records upon receipt.
- Our teams continue to collect, review, and validate the information required to maintain complete and up-to-date documentation.
- Should any non-compliance be identified, we commit to taking appropriate corrective actions without delay and to informing affected stakeholders accordingly.

Scope and Validity

This declaration applies to all packaging components supplied by Pilot Corporation of Europe and is based on the information available as of the date of signature, including internal technical data and supplier documentation received to date.

All packaging components have been assessed against the applicable requirements of Regulation (EU) 2025/40. Certain supplier attestations remain pending and will be incorporated into the compliance file upon receipt.

To the best of our knowledge and based on the information currently available, the packaging supplied complies with the applicable requirements of Regulation (EU) 2025/40 effective as of 12 August 2026. This declaration may be updated should additional information become available or regulatory requirements evolve.

Sincerely,

Patrice Domeur
Operations and HSE Manager
